

UTILITY CONSTRUCTION WITHIN CITY STREET RIGHTS-OF-WAY DURAND MICHIGAN

General

This specification covers the requirements of all gas, telephone, cable television, or other public utilities, and private persons or corporations in conjunction with construction operations within City street rights-of-way.

The utility company, private person, or corporation shall request, in writing, via a City of Durand Right-of-way Construction Permit, permission to construct within the City street right-of-way. A Permit Application and fee schedule may be obtained from the City. The construction plans shall be submitted to the City for approval a minimum of thirty (30) days in advance of the proposed initiation of construction operations.

All work shall be carried on in a neat and satisfactory manner and interference with flow of traffic shall be kept to a minimum. No street may be closed without prior permission from the authority having jurisdiction. The utility shall be responsible for providing, installing, and maintaining traffic control signs, lights and barricades as required by the MDOT Manual of Uniform Traffic Control Devices.

Whenever reference is made to specifications other than those contained herein, said specifications shall apply and be binding as if fully repeated herein. Unless as otherwise specified, all work shall conform with applicable divisions of the "Standard Specifications for Highway Construction", latest revision of the Michigan Department of Transportation (MDOT).

The utility company, private person or corporation shall notify the City at least 48 hours prior to commencing construction operations, unless the situation warrants immediate action.

Construction Operations

In general, construction operations shall be in accordance with the applicable sections of the MUNICIPAL STANDARDS.

1. Pavement Crossings - Unless otherwise specified, where a utility line crosses the entire width of a permanent pavement, the utility, private persons or corporations will be required to bore, bore and jack, or tunnel in accordance with SECTION 02222 - EXCAVATION FOR UTILITY SYSTEMS. If open cutting of the permanent pavement is allowed, the pavement shall be saw cut prior to excavation and backfilled and compacted in accordance with SECTION 01410 - SOILS COMPACTION AND TESTING.
2. Pavement Replacement - Where weather conditions allow, pavement shall be replaced immediately upon completion of construction operations. Pavement replacement materials shall be of the same material as the existing pavement. During freezing weather, cold patch shall be used until permanent pavement can be replaced. The utility, private persons, or corporations shall be responsible for maintaining the cold patch until the permanent pavement can be replaced. Prior to placement of the hot patch, all cold patch must be removed from the excavation and the area in question inspected by the City before additional work is completed.

**CITY OF DURAND
RIGHTS-OF-WAY CONSTRUCTION
APPLICATION AND PERMIT**

(To construct, operate, maintain use and/or remove within a city street right-of-way)

If applicant hires a contractor to perform the work, BOTH must complete this form and BOTH assume responsibility for the provisions of this Application and Permit.
